

# NC Infectious Disease Society Spring Clinical and Scientific Meeting

March 14, 2026 | 9:00 AM – 2:45 PM (Check in 8:00 AM)

The Friday Center, 100 Friday Center Dr., Chapel Hill, NC

The purpose of this knowledge-based educational activity is to provide an update on pertinent issues that arise in Infectious Diseases. The activity will include physicians, physician assistants, nurse practitioners, nurses, public health officials, and pharmacists in North Carolina who have a clinical role in the management of patients with infectious diseases.

## Learning Objectives

- Describe current strategies for HIV management and the use of PrEP in clinical practice.
- Analyze complex infectious disease cases and discuss evidence-based approaches to management.
- Summarize recent trends and challenges in emerging infectious diseases.
- Explain best practices for reducing antibiotic resistance in healthcare settings.
